Hello Mr. Wang,

     I am sending you an example using the first 8 pages of the claims. The first 8 pages have the amendments hand written in where some things need to be added and other things deleted.   The rest of the claim language also needs to be amended accordingly.   Please follow suit with ensuring the careful labeling and uniquely identifying variables using subscripts as shown in the first few examples; specifically with regards to each use of C_m or C_n or J_m or J_n.....each new use of these variables needs to have a unique subscript to properly identify the new variable and this needs to be consistent throughout the claims.

If there are any questions, please feel free to contact me at 571.272.7540.

Thank you,
Jason Sims
